

Mechanical Engineering Curriculum Facts CNM to UNM

*******IMPORTANT: To assure accuracy based on individual curriculum, student must meet with advisors at CNM and UNM*******

- The course ENGR 2088 is a CNM non-instructor course, and applies as an Engineering Elective that is used when a student takes a course at UNM then transfers the course back to CNM to apply towards the Associates degree.
 - Ex. The course ECE 330 is completed at UNM, then transferred to CNM where it becomes ENGR 2088. Course fulfills A.S. and B.S. requirements.

Students should contact an Advisor to understand UNM Engineering Curriculum Semester Sequencing upon full transfer.

- IT 1010 IT 1010
 - All CNM students are eligible to challenge IT 1010. IT 1010 is not a UNM B.S. requirement, but is a CNM A.S. requirement. UNM does not accept credit hours for the completion of IT 1010 challenge exam.
- ENGR 2815 Engineering Dynamics
 - ENGR 2815 Engineering Dynamics at CNM will satisfy UNM ME 306 Dynamics requirement, but the course will maintain lower level status and will not fulfill upper division degree requirements.
- MATH 2910 Applied Ordinary Differential Equations
 - MATH 2910 Applied Ordinary Differential Equations at CNM will satisfy UNM's MATH 316 Applied Ordinary Differential Equations, but will maintain lower level status and will not fulfill upper division degree requirements.
- ENGR 2710 Thermodynamics
 - ENGR 2710 Thermodynamics at CNM will satisfy UNM ME 301 Thermodynamics requirement, but course will maintain lower level status and will not fulfill upper division degree requirements.
